HILSC only promotes legal services at reputable non-profit organizations that are authorized to provide immigration legal services. Don't get scammed by notarios by following these guidelines:

- ✓ A "notario" is not an attorney and does not have a license to practice immigration law or represent you in your case. Notarios may cheat you out of significant amounts of money and harm your case.
- ✓ Be WARY if a provider does any of these: • Asks you to sign blank documents • Refuses to give you a contract for their services • Refuses to show you their license or accreditation • Guarantees positive results • Claims a special relationship to an immigration officer or judge that will benefit your case.

Private Attorneys: If you can afford an attorney, there are many immigration attorneys in the Houston region who are members of the American Immigration Lawyers Association (AILA): www.ailalawyer.org. **When you hire a private attorney**, we recommend asking them questions like: • In what state are you licensed? • Have you ever been disciplined by a State Bar? • How long have you practiced immigration law? • What type of immigration law do you specialize in? • If the individual offering representation avoids your questions, consider finding a different lawyer. • Call multiple attorneys before you hire one. • YOU are the client and you get to decide who will represent your best interests.
